“ Martha was the mother of one of the dearest friends in my life, Ali! Although when I first met her many many years ago she was quiet as a mouse!! Very loving lady. She loved her music and so much fun enjoying it with her. She sure surprised me when she could sing full lyrics, and could pat those feet. Loved this little lady!!! She will be greatly missed!!

“ I knew Martha as our neighbor and family friend. I will never forget my time accompanying her to dog shows and various dog events. She knew I was interested in dogs and training and always made me feel welcomed and included...even allowing me the chance to take her basenji, Farrah, into the show ring once! Such great memories with Martha.
